# CAN ORIENTER-TUBE TAPER-LABELER

## COMBINATION MACHINE

TUBE TAPER orients can and automatically tapes extension tube to can seam, using clear, single-sided tape

Economical non-orienting tube taper now available

CAN ORIENTER with labeler applies p/s label to selected position on can. Can Orienter can be interfaced with existing labeler.

MACHINE HANDLES CANS WITH WELDED OR SOLDERED SEAMS AT SPEEDS VARIABLE FROM 80 to 200 CANS PER MINUTE.

—Can Orienter and Tube Taper also available as separate units.—

**BEACON ENGINEERING CO., INC.**

aerosol equipment... **IS... WAS** and **WILL BE...** our only business!

IN STOCK FOR IMMEDIATE DELIVERY

We offer a wide variety of complete aerosol processing systems and system components such as leak test tanks, conveyors, pressure checkers, can feeders and depalletizers. Line outputs are available to 160 C.P.M. depending, of course, upon container size and fill proportions.

Shown is our single index paint filling line which processes 45 cans per minute. It can be converted on a weekend at your plant to 80 C.P.M.
